Learn It is the leading provider of academic, enrichment and professional services to schools across the country. Our team recognizes that a child’s path to academic achievement is often long, winding and lined with challenging obstacles. Our mission is to work with educators to bridge these challenges with exceptional passion and commitment.

Our programs are custom designed to meet the academic and programmatic need of our partners and adhere to the requirements related to federal and state laws. In addition to rigorous academics, our turnkey programs include parent involvement activities, targeted professional development, and aligned assessments. Learn It creates programs based on sound instructional components, flexible administration, and caring staff all aligned towards supporting our partners’ missions.

Our team has worked with over 200 school districts and more than 100,000 students on building bridges to academic success. We solicit feedback from principals and communicate successes and challenges continually. The entire team at Learn It is guided by a deep commitment to student achievement and supporting our school partners’ success.

**LEARN IT READING INCLUDES:**
- Instruction on phonemic awareness and phonics
- A focus on fluency, with guided oral reading lessons
- Continual assessments to improve word recognition and comprehension
- Vocabulary instruction, emphasizing active student participation
- The use of pre-instruction and repetition to improve retention and mastery
- Comprehension skills, reviewed systematically
- The teaching of strategies for self-monitoring

**LEARN IT MATH INCLUDES:**
- A design supported by research on cognitive development
- Lessons on understanding, representing and breaking down multistep problems, and interpreting data to solve problems
- Instruction and practice in constructing, reading and interpreting a wide range of graphs, and the use of graphs as sources of data to solve problems
- Repeated and cumulative emphasis on mental math and estimation as strategic, problem-solving skills
- Teaching students how to choose solution paths and how to explain their reasoning and justify their conclusions

**PROVEN, RESEARCH-BASED CURRICULUM OPTIONS**
- Verticy Learning
- Read to Achieve
- Focus on Common Core
- Readers Theatre
- Reading A-Z
- Make It Real Learning
TECHNOLOGY OPTIONS

LEARN IT + TECH
SELF-PACED ONLINE INSTRUCTION
Our blended learning program combines small group instruction with leading online curriculum from CompassLearning. During one half of the instructional sessions, students work in small groups with a certified teacher; during the other half they work at the computer, supervised by a monitor.

iLEARNIT
IPAD TABLET INTEGRATION
The iLearnIt program adds an iPad in every Learn It classroom replete with high quality, educational applications providing students with interactive learning opportunities.

PROFESSIONAL DEVELOPMENT
Learn It provides comprehensive Professional Development offerings for teachers. Workshops include topics such as Differentiated Instruction, Motivating Underachievers, Common Core Implementation, as well as Classroom Management.

Learn It also partners with Performance Fact for their Data Summit™ programs.

PERFORMANCE FACT
The premise of the Data Summit™ is simple: educators deserve “sacred time” every 6-to-12 weeks to reflect deeply on accomplishments and challenges, and to renew themselves. The foundation for the Data Summit is your school’s Instructional Focus, or results-focused continuous improvement plan.
